- English (C1 - fluent)
- Spanish (native)

SERGIO MARTÍN FRAILE

INTEGRATION & AUTOMATION DEVELOPER

PROFESSIONAL PROFILE

Developer with professional experience in client web projects, API integrations and automation. I have worked on solutions connecting forms, CRM systems and external services, as well as automating processes and data flows.

I like understanding how things work, finding a practical way to solve the problem and then building the solution. My current focus is integrations and automation, supported by my web development background.

WORK EXPERIENCE

RKPeople - Barcelona, Spain (Remote) JUN. 2024 - SEP. 2026
Frontend Developer

- Developed and maintained web solutions for multiple clients using WordPress, JavaScript, PHP, HTML and CSS.
- Integrated forms, external APIs and Zoho CRM within lead capture and data-management flows.
- Built an n8n workflow to consolidate booking data from multiple hotels, working with SOAP, webhooks, XML/JSON and Google Sheets.
- Developed a multi-step lead generation system connected to external APIs, including validations, lead creation, duplicate handling and tracking using UTMs, gclid and CID.
- Worked with REST APIs, Postman and third-party system integrations, including testing, debugging and troubleshooting.
- Managed migrations, maintenance, support and technical issue resolution across multiple projects.

Alten - Madrid, Spain SEP. 2023 - DEC. 2023
Full Stack Developer Internship

- Developed and maintained REST APIs.
- Worked with relational databases and data operations.
- Tested and validated endpoints and requests using Postman.
- Contributed code to collaborative development projects.
- Developed custom web interfaces and pages.
